

## Wallbase installation kit

### Description:

- Wallbase installation kit specially developed for Pergo wallbases
- Easy and flexible installation for a beautiful finish where no nails or screws are visible
- Enough for 15 linear meters
- Extra clips available as separate package (45225)

### Characteristics:

Product	Contains	Material
Wallbase installation Kit 45250:	1 pcs Drilling template	Polystyrene
	60 pcs Clips	Polystyrene
	60 pcs Screws (3,5 x 25) and plugs (Ø5)	

### Installation instruction:

Apply the clip in the template on the correct height

Install the clips on the wall using the plugs and screws enclosed in the package. Make sure to push down the template to the floor to ensure the correct position of the clips on the wall and to avoid gaps

Gently tap the wallbase into place from one end to the other once all clips are installed
